RAZZMATAZZ

is back

UNLEASH YOUR INNOVATIONS!

Calling all Researchers and Industry Pioneers!

Join us for an electrifying opportunity to showcase your groundbreaking aquaculture advancements at the RAZZMATAZZ session during Aquaculture Europe 2026. This unique event invites participants from various scientific backgrounds and industry sectors to present their cutting-edge achievements in dynamic and engaging presentations.

The Aim of RAZZMATAZZ

RAZZMATAZZ will be the platform to unveil the latest, unpublished successes of scientific entities, research labs, research teams, start-ups, and industry representatives dedicated to advancing the aquaculture industry. While advertising companies is not allowed, recent R&D activities by companies will be celebrated and encouraged.

The Vision of RAZZMATAZZ

Step into a vibrant and audience-friendly environment that sparks exciting discussions on the science-driven progress of aquaculture. Enriched with music, refreshments, and an atmosphere that fuels curiosity, RAZZMATAZZ will be an experience like no other.

The Format

Due to limited slots, panel of experts will carefully select the most relevant talks for presentation. Each speaker will have a strict 5-minute time frame, adhering to an engaging template provided by the organizers. While questions during presentations are not planned, backstage discussions will be highly encouraged.

WHEN

Wed 30 Sept.

17:30 - 18:30

WHERE

**Stebrna
Hall**

Ljubljana conference center

no slides of shame • no endless Q&A • just science that hits
